**PRELIMINARY AMENDMENT**

Sir:

Please amend this application as follows:

**In the claims:**

Please amend claims 3, 6 and 13 as follows:

3. (Amended) Apparatus according to claim 1, wherein the moveable system has terminals with provision for connection of a cellular handset, and means for transferring audio signals from the cellular handset to an audio output of the terminals.

6. (Amended) Apparatus according to claim 1, wherein the movable system has means for generating an association between an identity code of a destination node of the tracking radio link and an identity code of a cellular radio telephone, and means for storing the said associated identities in stores associated with the fixed and moveable cellular switching systems, thereby allowing both cellular radio switching systems to translate between the cellular radio identity and the node identity.
